Search Results

Your search results represent the broadest set of records that match your criteria. You may get entity registration records that are still in progress or have been submitted, but not yet activated. Check the record status of each result and use the Search Filters to narrow your results.

Of note, some entities have chosen to opt out of public display. Even if they are registered in SAM, you will not see their entity registration records in a public search. You can only see them if you are logged in as a Federal Government user.

If you want to perform a new search, be sure to use the Clear Search button to remove your results. If you have a SAM user account and are logged in, you can use the Save Search button to run your current search again at a later time.
